COMING HOME DIRECTORY

www.cominghomedirectory.org

Dear Reader:

With generous support from the Gardiner Howland Shaw Foundation (www.shawfoundation.org), Community Resources for Justice (CRJ) is proud to distribute this comprehensive directory of reentry services for previously incarcerated individuals in Greater Boston. The Coming Home Reentry Resource Directory is an effective tool to assist returning citizens, their families and support networks, as well as service providers, community leaders and government officials in establishing stability for people returning to our communities.

This Directory is presented by the Crime and Justice Institute (CJI) at CRJ. For more than 130 years, CRJ has been providing direct care and supportive services to society's most challenged citizens. CRJ's direct service programs range from residential homes for adults with developmental disabilities to programs serving at-risk youth and men and women returning home from incarceration. In support of CRJ's mission, CJI provides nonpartisan consulting, policy analysis, and research services to improve public safety throughout the country. With our creative, collaborative approaches to today's most pressing and complex social and public safety problems, we are committed to improving public safety and human service delivery in Massachusetts and nationwide.

At CRJ, we know all too well that the transition from incarceration to the community is a difficult time for returning citizens, and this transition affects their families and the communities to which they return. The needs of the population returning from prison or jail can present significant obstacles to achieving stability. Yet, there are many services and agencies in our communities that provide the assistance that can mean the difference between success and return to prison or jail. This Directory is intended to identify and describe these services and distribute this information to as broad an audience as possible.

The Directory is based on the great foundation constructed by the Prisoner Reentry Working Group, the original authors of the Directory. CJI took over production in 2009 and continues to build on the good work that has been done.

The Coming Home Directory website can be found at www.cominghomedirectory.org. You can search the Directory in a number of ways, get contact information, and download and/or print the PDF version of the Directory. Due to the costs of producing the printed version, updates will be published in printed form, annually. However, this website will be updated on a rolling basis. Therefore, please visit the site for the most up-to-date information.

Introduction

Welcome to the *Coming Home Reentry Resource Directory*.

This Directory is a compilation of services available to previously incarcerated citizens returning to or living in communities in Greater Boston. The Directory presents important information for returning citizens, corrections practitioners and policymakers, as well as those with an interest in accessing services for returning citizens, including their families and friends, volunteers and other service providers. This Directory is presented by the Crime and Justice Institute (CJI) at Community Resources for Justice (CRJ).

What is the Purpose of the Directory?

The purpose of the Directory is to assist returning citizens – as well as their families, service providers and local agencies – improve their chances of success in the community by connecting them to services important for stability and success.

The transition from incarceration back into the community is a difficult time, and affects returning citizens as well as their families and communities. The needs of the population returning from prison or jail can present significant obstacles to achieving stability. Yet, there are many services and agencies in our communities that provide the type of assistance that can mean the difference between success and return to incarceration. This Directory is intended to identify and describe these services and distribute this information to as broad an audience as possible.

Who is the Directory for?

The Directory is primarily intended to benefit the following people and groups:

- Returning citizens
- Families and friends of returning citizens
- Service providers
- Corrections practitioners
- State and local agencies that provide services to people including returning citizens
- Policymakers interested in criminal justice and social service systems
- Researchers examining the services available to returning citizens in Massachusetts

How Do You Access the Directory?

In addition to the printed version, a website of the Directory is maintained by CJI. You can access this site by visiting www.cominghomedirectory.org. Information on the site is updated on a rolling basis. The hard-copy version of the Directory is printed annually and is available in limited numbers on a first-come, first-served basis from CJI. Due to resource limitations, we are unable to fulfill all individual requests and we strongly encourage users to access the online version of the Directory as it also contains the most up-to-date information.

Directory Limitation

The agencies listed in the Directory and on the website are not the only resources available. We have tried to include all appropriate agencies and organizations; however, some information may prove to be missing.

It is our intent to expand this list as more information is made available. To do this, we rely on the community of providers and users to assist us in maintaining accurate and relevant information. If you recognize inaccuracies about a service or agency in this Directory or on the website, or if you know of or are part of an agency you think should be included, please notify the editors. Update requests can be submitted via email or fax by submitting a completed “Agency Update/Addition” form located in the back of this Directory. You can also find copies of the form on the website by visiting the “Documents” webpage. The website is updated as quickly as possible and includes the most recent information available. The printed version of the Directory is updated annually.

The Directory is designed to connect people to services. The information for each organization in the printed version and on the website has been provided by the service provider or from the organization's website. The editors cannot and do not vouch for the accuracy or quality of the services available.

Services: DLC is the federally mandated protection and advocacy (P&A) system in Massachusetts. We receive most of our funding from the federal government. The majority of our funding must be devoted to our core functions of monitoring and investigating abuse and neglect in places where people with disabilities live and receive services. The work we do with any other resources we have must be prioritized to guide the work of our legal staff and provide the structure required by these other funding sources.

DLC advocates for the interests of people with disabilities mostly through systemic reform in the courts and other legal forums. This is the work that is tied to our priorities that is not included in our core function of addressing abuse and neglect, which is our primary priority.

We provide information, referral, technical assistance and representation regarding legal rights and services for people with disabilities.

We provide legal services to eligible people and groups whose cases meet DLC's priorities. (See list above)

We seek to strike a balance between systemic advocacy and individual representation.

Our experienced lawyers and paralegals conduct trainings for community groups and other advocacy organizations.

The work described below includes the cases we take to represent a limited number of individuals as well lawsuits we file to address widespread legal violations. Each year the DLC publishes a list of priorities to focus on. The priorities for the types of cases we will take for 2019 are as follows:

Human Rights Issues

– Abuse and Neglect and Serious and systemic violations of human rights of individuals with mental health disabilities residing in facilities and individuals with developmental disabilities.

– Person who is Deaf/Hard of Hearing encounters barriers related to communication access when interacting with law enforcement

Education Issues

– Students with disabilities currently receiving SSI/SSDI

and in need of an accommodation within their academic environment

- Abuse and Neglect and Serious and systemic violations of human rights of students with disabilities in school facilities (for example: restraint and seclusion OR allegations of physical, emotional, or sexual abuse of students in educational environments (whether residential or not))

Employment Issues

- Work related overpayment from SSA
- Beneficiaries of SSI/SSDI who are experiencing discrimination based on their disability at work

Housing Issues (within the United Way Service Area)

- Reasonable Accommodations
- Disability-related evictions
- Subsidy termination for disability-related reasons

Health Care Issues

Services: Boston Public Schools (BPS) has for over 140 years responded to adults in need of education and has recognized that critical to the success of every child's education is parent and family involvement. In order to improve learning for all children, educational opportunities are made available for parents and other adults in the community.

We provide basic skills that prepare parents to enter the workforce, higher education and job training. Our adult students represent the Boston community: native-born Americans and immigrants who need educational credentials, English language skills and/or math proficiency to compete in the workforce.

The Adult Learning Center also serves as a test location for the HiSET exam (the new GED/high school equivalency exam).

Visit www.hiset.ets.org/take/overview/ to register and for more information.

Call to sign up and find out program specific information; see brief program descriptions below.

The Family Literacy Program at the Adult Learning Center is a day-time program offering adult basic education, all levels of English for adult language learners, HiSET preparation, and computer literacy classes. Our program is free and parents of Boston Public Schools children are prioritized for enrollment.

The Family Literacy Program helps parents and children learn together. A Parenting Skills Curriculum provides parents the opportunity to strengthen their parenting skills.

Boston Central Adult High School is an evening program that offers a 16-unit program (College Preparatory and General), eventually leading to a diploma comparable to the one offered by accredited day high schools in the City of Boston Public Schools. This specialized school for mature and serious-minded people allows students to participate in comprehensive programs of study and to complete diploma requirements during evening hours while maintaining full-time jobs.

Counseling is available to all students who would like to take advantage of the student support services. If you are a high school graduate who needs special courses to gain admission to college or to an institution of higher learning, Boston Central Adult High School may provide the courses you need to meet admission requirements.

Adult Diploma Program (ADP) is an alternative route to a high school diploma. Adults work at their own pace in this flexible program. It includes take home projects, performance assessments, frequent interviews, and library research. Graduates receive a Boston Central Adult High School diploma.

RESPOND, Inc.

PO Box 555

Somerville, MA 02143

Phone: 617-623-5900

info@respondinc.org; www.respondinc.org/

Services: 24 Hour Crisis Hotline: 617-623-5900

RESPOND provides emergency shelter and a range of support services and educational programs to thousands of survivors of domestic violence each year including adults, children and teens regardless of gender, race, religion, age or other characteristics. RESPOND staff work with survivors of domestic violence to address their immediate and long-term needs, providing emotional support, counseling, financial resources, information and referrals. Through RESPOND's programs, individuals and families in crisis develop the concrete tools necessary to regain control of their own lives – from parenting skills and housing search to financial literacy, and the hands-on experience of advocating for themselves. Services are free, confidential and currently offered in multiple languages.

Community Services:

RESPOND's Supportive Services are available to all victims and survivors of domestic violence. They include:

- 24-Hour Crisis Hotline that provides emotional support, safety planning, resource referrals, and information on legal options, statewide shelter availability and community resources.

- Individual counseling and support groups, which help survivors define and meet their goals regarding safety, housing, employment, health care, housing issues, custody, and education.
- Access to safe shelter and housing remains a primary concern for all survivors of domestic violence. RESPOND developed its housing assistance program to address the unique needs of survivors and fill the gap left by anti-homelessness agencies.
- Basic Assistance that helps program participants to access necessities such as food, clothing, medication, transportation and temporary shelter through the provision of gift cards for grocery, pharmacy and department stores, 911 emergency cell phones, and school supplies when no viable options are available.
- Legal Support that provides individuals with court accompaniment, assistance accessing legal aid services, and help with diverse legal issues including restraining orders, child custody, and immigration. Staff maintain a weekly presence in the Woburn and Malden District Courts and work closely with the victim witness advocate program run by the Middlesex County District Attorney's Office. SAFER (Survivors of Abuse Feeling Empowered for Re-Entry) Program designed to provide support and resources to detainees and inmates in the Suffolk County House of Corrections.
- Children's Services that help parents to meet their children's education, health care and out-of-school needs. RESPOND also leads parenting groups, literacy activities, and works to improve prenatal care.
- High Risk Assessment Teams designed to minimize harm or lethality to survivors of high risk domestic abuse cases by providing a multidisciplinary approach to coordinate a community response including: immediate crisis interventions and long-term stabilization of survivors of domestic violence and identifying, monitoring and containing high risk offenders. RESPOND is the lead agency of the Somerville High Risk Assessment Team, Stoneham High Risk Assessment Team, Malden High Risk Assessment Team and Co-founder of the

Cambridge, Arlington and Belmont Team, all of which cover a total of 15 municipalities.

- Outreach and Education Activities through which RESPOND addresses the root causes of domestic violence via community education and outreach initiatives designed to raise public awareness about domestic violence, educate the community to recognize signs of abuse and promote healthy relationships. Staff commonly provide training for law enforcement officials, healthcare professionals, local civic and religious groups, high school and college students and other human service providers.
- RESPOND has a Civilian Certified Domestic Violence Counselor embedded in five Police Department. This partnership allows RESPOND to work directly with victims identified through Malden, Melrose, Wakefield, Reading and Woburn PD contact (police calls) and allows us to offer information and support related to restraining orders and a variety of needs related to domestic abuse. On-site, the Certified Domestic Violence Counselor can refer to any of RESPOND's programs or another suitable resource in real time, in a safe, accessible environment.

Emergency Shelter:

Emergency Shelter has been the cornerstone of RESPOND's services since the agency's founding in 1974. Safe, confidential shelter remains a critically necessary last resort for survivors of domestic violence in grave danger with no other resources or available supports. RESPOND's emergency shelter location is kept confidential to ensure the safety of program participants. Services are available 24 hours a day, 365 days a year.

RESPOND's eight-bedroom home is one of the few domestic violence shelters that is wheelchair accessible and ADA approved. Its spacious Children's Learning Center offers a safe, colorful play space and programs that promote learning, encourage parental involvement, and connect children and teens to local in- and out-of-school enrichment activities. The average length of stay for residents is 4 months. RESPOND is proud to accept women and men (or any gender identity) into shelter as well as parents with teenage boys – a rarity in Massachusetts.

Service Hours: Business office hours M-F: 9am-5pm; Programs and Services staff available 24/7 via hotline

Requirements & Restrictions: RESPOND is a Domestic Violence Survivor service provider, not a batterer intervention program.

Acknowledgements

This initiative and the information included in the Directory and on the website would not have been possible without the dedication and vision of the Prisoner Reentry Working Group (PRWG), and the financial support and insight of the Gardiner Howland Shaw Foundation.

The PRWG was established in 2000 out of concern for those leaving prison and facing the formidable challenge of trying to create new lives for themselves in Greater Boston. PRWG developed the project that became the Coming Home Reentry Resource Directory. Over the next several years this group continued to collect, edit, and manage the information in the Directory to ensure that it was accurate and accessible to those in need. The efforts of PRWG have assisted countless returning citizens, their families, and those working with them in the corrections system and in the community to improve reentry success for previously incarcerated individuals.

The Gardiner Howland Shaw Foundation continues to be a strong supporter of this project and maintains its commitment to vital services and policy development to assist marginalized populations and their advocates despite adverse environments.

The editors would also like to acknowledge the invaluable contributions of the following people:

Julie Finn's leadership as project manager and years of expertise working on the Directory were of invaluable help to the Directory team. She reliably knows the answer to every question, and provided gentle oversight with the long-term goals of the Directory in mind.

Melinda Czaja managed the annual update process and was responsible for coordinating the work of the project team. Melinda kept the team organized and on track to ensure the Directory continues to benefit the Boston community.

Gianna Kittle became an integral part of the Directory work for this 2020 edition. Gianna consistently proved her dedication to the project by thinking ahead and doing every bit of work with a smile on her face. Gianna, you went above and beyond for the Directory and we could not have done it without you!

Christian Schiavone offered outstanding website support with patience and humor. The Directory team is extremely grateful for his assistance in overcoming new challenges.
